March 2015

Introducing RapRap...

Last month, you will remember reading these words: The mission of **Horizon of Hope Village** is to take 'throw away kids' who have [no doubt] witnessed profound evil, endured horrible living conditions suffered much heartache and loss, and nurture each one of them spiritually, mentally, physically, and emotionally with the love of Jesus!

Today, we invite you to **celebrate!** We have received the wonderful news from the Slatons that **the very first child has been received at Horizon of Hope Village—a precious four-year-old little boy, Raprap—no name, no birth date, picked up off the streets by the police...**

Jan wrote, "He cried for about 15 minutes when he was brought in by the social worker, but Don made animal sounds that made him smile. He played, asked to take a walk (he has not been allowed outside for months where he was kept at a holding center). We had a cake with 'Welcome Raprap' on it...He enjoyed a bath and new pajamas...We treated him for scabies and body lice, and gave him a one time worm pill...Then we read a Bible story and knelt together to pray...The house Mother interpreted everything I said because he does not speak one word of English, but I have already taught him the colors in English...He is smart and will learn fast. He is precious. He has lots of old and new bites and scabs but has been sleeping with no screens for several months, so he has got many mosquito bites. He will be loved dearly!"

Tomorrow, our second little boy will arrive.
